ROYAL AVILA BOUTIQUE RESORT

5-stars boutique resort in the style of Mediterranean in Lombok

Missing vacations to exotic places that can only be seen on Instagram like in Greece? Or have you been to and really want to go back there but the situation and conditions are not good enough?

The mega project, which stands on a 2.5 hectare land, is being worked on by a leading developer in Indonesia, entitled Royal Avila Boutique Resort. This luxury resort is designed in such a way with an architectural style and interior design inspired by luxury resorts in Santorini, resulting in a true view and atmosphere of Santorini. Located on a high cliff overlooking Malimbu Bay, Royal Avila Boutique Resort is built with a unique terraced architecture designed to be in harmony with the surrounding cliffs.

Royal Avila Boutique Resort consists of 54 exclusively designed suites, infinity pool with ocean view, restaurant, lounge and bar, beach club, gym and fitness center, wellness and spa, as well as event venue for your special events.

Each suite is designed to have its own character. Ocean Deluxe is dedicated to satisfy young travelers in a modern Mediterranean style. For a more romantic hue, Ocean Premier is decorated in a luxurious white-turquoise style with private balconies overlooking the ocean as well as the bathtub to pamper. The Ocean Suites has more luxurious details with a modern-Mediterranean design, also equipped with a balcony that offers stunning ocean views. For maximum comfort stay, The Rooftop Suites is the right choice as this luxurious design combines all the other suite features. However, there is no doubt that the Penthouse is the ultimate gem of this resort, with beautiful ocean views from every room.
